NEWS AND ACTIVITIES OF THE LINCOLN SKY KNIGHTS R/C CLUB

President's Message

With the season in full swing from my back deck I can once again hear the whine of electrics and the clatter of gas and glow engines. Wow it is great to have that back after the long dry spell this winter. One of the sounds I haven't heard much of is the scream of the old half/A engines. Just for the fun of it I hunted up my old box of parts and lit up one of the last cox TD.051s in my bin. It still screamed just like it used to and brought to mind the days of learning to fly with a single channel radio and a screaming .049 on a Cox EazyBee foam trainer.

Hopefully I could make it through the full three minutes of terror before the engine cut and I'd try to glide the plane down to someplace I could still see it. The bean field behind my grandparents place made an ideal landing spot and the many times the engine bay was full of mud didn't seem to make it run any worse. I don't remember ever thanking my grandpa for not saying anything about his beans getting trampled or the mess I'd leave in my room on the porch. It's all water under the bridge now and I have the memories of that happy summer. Just for the fun of it I looked up free flight on youtube. Not a surprise that most of the videos were of old guys over in Europe. The American mindset doesn't lend itself to the little stuff much anymore unless it is electric and indoor. Some time when you are not doing anything think of where you started out and see if you can find some of the kits you started with. Right now the

retro thing is in, cars, motorcycles, clothing... so why not model planes? Take a second and browse the internet just to find the kits that started it all. I went through my cupboard and granted I love freeflight and nostalgia type planes, I found over thirty planes that I haven't built yet. Time has a way of getting away from us, so take time now and build those planes you always meant to but thought, "maybe someday." It's an excuse anyway to put off work and play. It's good for your mental health if nothing else. Maybe it will make it so we hear the scream once more of the good old half/A engine at our field once again. Keep flying it's good for you.

Secretary's Report

The meeting was called to order at 7:31 by President Wilson Hardy with 17 members present.

VP/CD Report

Sig is having a fly in June 12-14 in Montezuma Ia.

Indoor flying final total income was 63 dollars. Of that 60 dollars was proposed to be set aside of AMA sanction next year but no vote was taken on that.

The club will be doing display and flying demo or the Boy Scouts at Mahoney park in Lincoln on Saturday may 25 from 1-4. We have a small flying area so only small electrics will be able to fly, but bring out your display plane for them to see.

Treasurer's Report

Normal bills were paid.
The auction netted \$1350 this year.

Safety Officer's Report

The safety officer reported he had no calls.

Old Business

1. The option of haying the field is still being looked into. Dave Riber hopes to meet with the guy who is interested in the next few weeks.
2. Glen Lau reported that Phil Holman has at 90 closed the case on his transmitter for the last time. He will stop by to make sure we are doing it right but his flying days are over.

New Business

1. The runway is cracking again and new member Gorden Wisbey will check on materials to repair it and get in touch with Alan.
2. The water is turned on.
3. There were some questions about how accurate the weather station on the club web site was, but no suitable was forthcoming.

New Members

Gordon Wisbey and Jacob Smith

Models of the Month

Wilson Hardy brought a ridiculously small quad copter.

Meeting adjourned

Meeting ended at 8:11

Boy Scout Event

A very windy and cold Saturday for the event. Rich Kuenning, Alan Zinnecker, Don Dickey, Steve Rogers, Milt Oschner, and Leonard Akert brought some airplanes for static display. There was no place to fly near the display area but Milt Ocshner and Leonard Akert made some flights on ½ of a sand volleyball court surrounded by trees. Many scouts came by and asked questions about the RC aircraft we brought.

Celebrating 90 Years Jay Philip Holman

Come Join us at an open house
Saturday, May 2, 1-5PM

At Eastmont Towers

Seasons Bldg

The Atrium

6305 O St.

Lincoln, Ne 68510

No Gifts Please

Send cards to

Mr J.P. Holman

6335 O St Apt.526

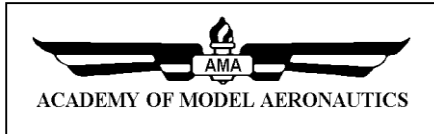

Lincoln, Ne 68510
