NEWS AND ACTIVITIES OF THE LINCOLN SKY KNIGHTS R/C CLUB

President's Message

So I was just sitting through the last couple of days learning about Electrical Law. Fun stuff... but on Thursday evening at the banquet for the meetings the entertainment was a barbershop quartet. One of the songs they used to close off the evening was a song by that the Statler Brothers made popular a long time ago called "Do You Remember These". It got me to thinking about what I remembered about my childhood. The first thing that came to mind was balsa and tissue. I started building freeflight peanut scale planes when I was six years old. My first flew like the proverbial brick, but it flew. That little bit that it did fired the disease that has been one of the mainstays of my life. Even when girls came on the scene planes didn't get shoved to the side. Now thirty some years later I still can't stop building planes. I never did really pass this on to my kids. In fact I don't know many in our little club that have passed this love on to our kids. I'm thinking that if we look at this in a purely cynical way it is because we are self centered, but maybe not. In each of us is the need to express beauty, creativity, freedom, and in the end show who we are. In this little bit of freedom we have in seeing our planes fly we become something or someone better. That is where the meanderings of a tired mind took me this evening, I'm hoping that in this life you too can see how your time in the air has made you a better if not happier person. Keep flying and may all your landings be ones you can walk away from.
