NEWS AND ACTIVITIES OF THE LINCOLN SKY KNIGHTS R/C CLUB

President's Message

Wow this year is flying by like the wind, Wind being the pun!

We still have many days before the cold shuts things down to most of us but now is the time to look around as you are leaving the field to put things away as if it were the last time you'll be there this year. It will make keeping up the field much easier for the rest of the members, and thank you to all who have maintained the field and clubhouse this year.

The well pump has been fixed and the problem was traced to a bad splice in the wiring. The repair was about 2% of the cost of a new pump! Again THANKS GUYS!

On a cautionary note those of us who use RC universe to buy things need to make sure to do the feedback after buying from someone. I made a purchase this month and it was not good. What I got didn't look like what he showed for sale, it was more like he cleaned out his junk box and sent the worst of all the parts he had and also failed to disclose some defects that would have raised a red flag. He had 67 sales on RCU so it is tough to write it off as someone who didn't know better. Ask questions, look at the seller's history, get pictures and use PayPal. If it goes bad maybe you can get your money back.

A reminder that at this meeting we will be nominating club officers and we need to fill the V/P secretary and treasurer jobs and as always the president's job can be taken as well, but I do hope to stay on one more year. This is your chance to help direct your club.

Good landings!

Alan
